

Assignment #6,

Due in class, on 3/6.

The assignment is based on your close reading of the three assigned chapters in Ricardo. I would suggest that you focus on chapters I and VII.

Find a passage in Ricardo that contains a logical error or numerical mistake. Quote the passage (giving the page number) and then write a paragraph explaining why you think there is an error in his argument. The best grades will go to those who find a passage with a serious flaw and explain clearly why it is flawed.
