Description This course will cover theoretical and empirical work on international trade.

Grading There will be problem sets (50% of the grade) and a take-home final exam (50%).

Readings The list of readings follow. The readings are generally available from JSTOR, my web site, or the course web site.

Topics I have organized the readings by week.

1. (1/25) The Ricardian Model

2. (2/1) Continuum Model

3. (2/8) Probabilistic Formulation

4. (2/15) The Monopolistic Competition Model

5. (2/22) **Factor Endowments: Theory**

6. (3/1) **Factor Endowments: Empirics**

7. (3/8) **Trade and Individual Producers**

8. (3/15) **New Dimensions of Trade Data**
